Enter your 8 digit coupon number in **UPPERCASE** and click **PROCEED**.

One of two things will happen-

1. If your coupon value is more than the cost of the tickets the coupon will be applied to the purchase cost. Your tickets will be free BUT YOU NEED TO COMPLETE THE PROCESS by following the prompts. The remaining amount on the coupon after the purchase will be available to you for your next purchase **PRIOR TO THE EXPIRATION DATE**.
2. If your coupon value is less than the cost of the tickets, the coupon will be applied and the purchase cost will be reduced accordingly. You will then complete the purchase by paying the reduced cost with your credit card or PayPal account at the PayPal site.

### What if the website says I have to call the box office for tickets?

Call the box office and tell them you have a coupon to redeem but the site is requiring you to call the box office. The box office can fill your order IF SEATS ARE AVAILABLE and they will email you a link to pay for the tickets. Using that link you will be able to use your coupon.
